

Grangala

The Grangala family

The Grangala chair was born in the creative mind of the famous Antwerp designer Axel Enthoven. It is not a fortunate or happy unplanned coincidence but a solid oak chair, stackable, not trendy nor fashionable but tested to the real world. This is a chair with class, the perfect combination of a simple design and a classic look. The Grangala chair offers maximum comfort and invites you for a long and tasty dinner. The armchair version is also available in high quality European oak and equally stackable, timeless and therefore forever young.

Designed by
Axel Enthoven

Axel Enthoven is a Belgian designer. He is known for his participation in the jury of the program 'De bedenkers'. Enthoven and his company won several prizes, including the Red Dot and IF.

Craftmanship

Onze werkwijze

Our expertise in production techniques and design thinking was obtained through 4 generations of experience in the field. Together with the fully equipped, efficient contemporary production unit in Belgium, this forms the foundation of our brand's ambition. The aim is to bring people, nature and design together in high quality products.
