

T-Bone T H76

The T-Bone family

The T-Bone collection has a strong graphic design component in keeping with bob Van Reeth's architectural style. The collection is the outcome of a detailed study of forms leading to sculpted flared legs which add an overall sense of lightness to the solid wood chairs.

CRIB 5

Ruggedeelte

Opbouw

The designer

Designed by
bOb Van Reeth

bOb Van Reeth is an iconic Belgian architect. Van Reeth's work is not based on a certain architectural form, but on the living and working patterns of people.

Craftmanship

Onze werkwijze

Our expertise in production techniques and design thinking was obtained through 4 generations of experience in the field. Together with the fully equipped, efficient contemporary production unit in Belgium, this forms the foundation of our brand's ambition. The aim is to bring people, nature and design together in high quality products.
