

# Epic 03

## The Epic family

The distinctive back is what makes this chair so special. It literally splits the frame in two. A team effort was needed to create this remarkable product. The collection comes in oak and can be partially upholstered or painted in color.

## The designer

---

Designed by  
Marc Th. van der Voorn

Marc Th. van der Voorn is an established Dutch designer based in Utrecht, working in the field of product design. His approach is practical, hands-on and collaborative. His experience in design, development and practical know-how make him a dedicated partner.

## Craftmanship

---

### Onze werkwijze

Our expertise in production techniques and design thinking was obtained through 4 generations of experience in the field. Together with the fully equipped, efficient contemporary production unit in Belgium, this forms the foundation of our brand's ambition. The aim is to bring people, nature and design together in high quality products.
