

Grace

The Grace family

The Grace chair, designed by Axel Enthoven, displays a beauty which may compete with the former Princess of Monaco. It exists both in a chair and armchair version in solid European oak with a multiplex shell. Enthoven concentrated on our aging society and developed a highly aesthetic fresh chair for the coming 65 plus generation, leaving behind the obsolete seats and sofas. The Grace chair aims specifically at the healthcare sector. It is offered with an extra upholstered front, fabric or leather look. The shape of the shell suits your back perfectly.

Designed by
Axel Enthoven

Axel Enthoven is a Belgian designer. He is known for his participation in the jury of the program 'De bedenkers'. Enthoven and his company won several prizes, including the Red Dot and IF.

Craftmanship

Onze werkwijze

Our expertise in production techniques and design thinking was obtained through 4 generations of experience in the field. Together with the fully equipped, efficient contemporary production unit in Belgium, this forms the foundation of our brand's ambition. The aim is to bring people, nature and design together in high quality products.
