The designer

Designed by
Studio Segers

A key aspect of Studio Segers' philosophy is a rational approach to design, which creates the perfect marriage between form and function.

Craftmanship

Onze werkwijze

Our expertise in production techniques and design thinking was obtained through 4 generations of experience in the field. Together with the fully equipped, efficient contemporary production unit in Belgium, this forms the foundation of our brand's ambition. The aim is to bring people, nature and design together in high quality products.

Vrije tekstruimte

This chair is also available in the stackable model.
